"...Some protesters have compared the anonymous armed officers to Russia's "Little Green Men," the soldiers-dressed-up-as-civilians who invaded and occupied eastern Ukraine. ..."
What this tells me is this:
HOW ELSE do we find out "who is who" fomenting the violence?
I'm all for it, and would expect nothing less if I were in command.
On an *other note*...the skies surrounding me in Alabama are pretty close to HAARP disturbances. Teeming, windy, ominous...without warning.
Maybe it will prove to keep us safer as the night unfolds.

three branches will become one

an island will drift away

a killing bolt will shine in the night but will not kill

the star will gorge itself on clay

idols will speak and move about

the black flag will fly above the dome

the belly of the dragon will drip water

two voices will call out in a silence that all will hear

a rock will stand on seven hills

the ravens will starve

the bear will leave its cave forever

the rod and the ring will strike

I want to believe. There are glowniggers are breathing down my neck atm.

Put on the whole armor of God, that you may be able to stand against the schemes of the devil. For we do not wrestle against flesh and blood, but against the rulers, against the authorities, against the cosmic powers over this present darkness, against the spiritual forces of evil in the heavenly places. Therefore take up the whole armor of God, that you may be able to withstand in the evil day, and having done all, to stand firm. Stand therefore, having fastened on the belt of truth, and having put on the breastplate of righteousness, and, as shoes for your feet, having put on the readiness given by the gospel of peace. In all circumstances take up the shield of faith, with which you can extinguish all the flaming darts of the evil one; and take the helmet of salvation, and the sword of the Spirit, which is the word of God, praying at all times in the Spirit, with all prayer and supplication. To that end, keep alert with all perseverance, making supplication for all the saints, and also for me, that words may be given to me in opening my mouth boldly to proclaim the mystery of the gospel

The US has 240 Federal agencies, it can sequester and use personnel from different agencies. That's likely what's happening here. However, 'real men-in-grey' probably have cover working for these other units and then when occasion arises I imagine they subcontract to other agencies. Or at least that's how it works in other countries I know about.

LMAO

So all the clueless libs and leftists and pawns calling to abolish the police will abolish their state police and then a federal police force will just step in likely if it ever gets to that

They have no idea how this shit works

National Guard is unarmed fully now, only Federal Police in DC are now armed

I wonder what they are planning, this whole Saturday protest event is one giant fucking climax to a week of organized and controlled planning/tactics/optics on the left

You guys do understand this Federal Police is not on the side of the left/libs/antifa right?

These are the guys that would fuck shit up if antifa ever decided to start shit

ALL NATIONAL GUARD UNITS ARE DISARMED NOW

Just in time for Saturday

Only armed units in DC now are the various Federal Police and state police

Really makes you think.... the left is up to something, and it will probably be about pinning the spotlight on the FEDERAL POLICE this time, now that the National Guard is in the eyes of the public- cucked and disarmed

sun will help with chink flu but all that matters is how long until definitive cures come out. They seem to be negotiating if china will finally back the fuck down but chink's latest move says no.
It all depends on world vs china right now they apparently have no fucking problems with 100+ million dead if it helps throwing Trump out of power.
Maybe population in china who just lost all their families and loved ones may start having second thoughts have xi and psychotic retards being good for future of the country.
isis - iran - china gloating about riots.
state level and group enemies (obvious ones) are becoming clearer.
Good luck to MBS once again. Good guy.
